Integrated
Audio Solution for Adobe® Connect™

Fully-integrated and secure audio with Adobe Connect. On-demand audio conferencing service allows you to manage all aspects of the call directly from the desktop, so participants can stay focused on the meeting and be more productive.

Fixed, flat rate pricing plans ensure a predictive spend for budgeting across the organization.

Enhance Your Audio Experience from Anywhere in the World

Globalmeet Audio integrates seamlessly with Adobe Connect. Call controls are accessible via an easy-to-use web interface that provides hosts with full desktop control of all elements of a virtual group meeting. Hosts and participants can easily join meetings with a single click. You no longer have to remember conference numbers and passcodes. Simply enter the number at which you would like to be called and the system places you directly into the audio conference.

Individual and global call controls allow hosts and participants to control audio. Muting, un-muting, volume control and exiting the conference can be done both individually and for all participants.

Visual Controls
Download PC, Mac, and mobile apps that provide a visual console for recording, muting, sending invitations and more.
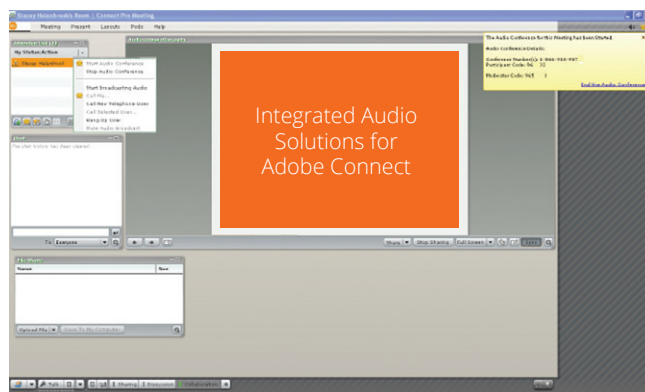

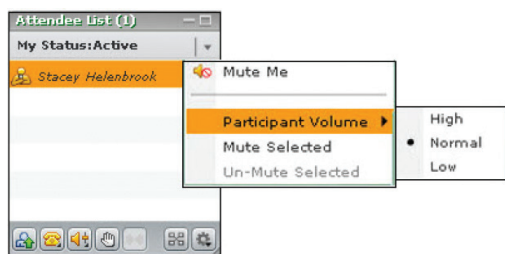

Crystal-Clear Hybrid VoIP/PSTN
Audio quality maximizes productivity with high quality voice communication for up to 300 participants.

Global Coverage
Connect with participants from all over the world with over 160 access numbers across 60+ countries.

Integrated Audio Benefits

- Proven **security measures** designed to protect meeting content, including SSL encryption, conference lock option and a visual indication of who's in the meeting and who's speaking, with the ability to instantly disconnect participants.

- **Live-in-conference operator assistance 24/7** for audio and Web features by pressing *0 on your phone to ensure a productive conferencing experience.

- Individual mute and disconnect controls provides the moderator with the ultimate **conference management tools**.

- **Flexible connections** improve meeting participation with dial-in, dial-out, toll-free and VoIP options.

- Built-in logic allows for **one-click meeting entry** without remembering numbers or passcodes.

Adobe Connect with Integrated Audio Features

Call Me – have the system call you and place you directly into the conference Call Selected User – dial out to selected web participant

Call New Telephone User – dial out to audio-only participant

Mute All – silences all participants with a single click

Mute User – mute individual line to eliminate background noise

Edit User Info – edit participant name and/or phone number

Hang Up User – disconnect a participant

End Conference – hang up all participants

Breakout Rooms – audio follows breakout room creation in the conference
