

COLLABORATIVE ADVANTAGE

# Take Your Web Events to the Next Level Host Professional-Quality Webcasts and Webinars

## Create Impactful Events

Host events with multiple presenters for up to 10,000 viewers

## Join From Anywhere

100% browser-based access for presenters and attendees

## Engage Your Audience

Robust features include polling, Q&A, testing and certification

iMeetLive® makes hosting web events easy. Whether your need is for a town hall, training or virtual marketing event, industry-leading iMeetLive allows you to create, host and record professional-quality webinars and webcasts to hundreds or thousands of viewers anywhere in the world. With iMeetLive, multiple presenters can interact and engage with attendees and benefit from powerful analytics to measure success.

### Easily Create High-Quality Webcasts

iMeetLive's easy-to-use interface allows you to quickly schedule and customize events. Whether you choose a self-service experience with iMeetLive Express or fully managed services to meet your specific needs, 24/7 live support with event experts ensures each event runs smoothly.

### Host Engaging and Impactful Events

iMeetLive is a cloud-based tool offering 100% browser-based access for hosts, presenters and viewers from any device. Its robust feature set creates an engaging experience for up to 10,000 attendees, including video streaming, polling, Q&A and social media feeds.
